**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3-6 and 8 -10 are rejected under 35 U.S.C. 102(b) as being anticipated by Paz (3,739,938). Paz discloses, in fig. 2, a beverage container comprising a base 11, a removable cover 12 having a cap defining a recess (the space voided between the member 30 and member 12, or it can be the space voided between member 20 and member 23), an aperture (the void space where the member 26 goes through), a drink passage 21, a valve assembly 25 having a push button 27 disposed centrally of the cap, a vent 23, and raised lip 10.

3. Claims 1-3, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hsu (5,857,941). Hsu discloses, in figs. 5, 6 and 9, a beverage container comprising a base 7 defining a vacuum insulation space, a removable cover 1 having a cap defining a recess 331 or 3, an aperture 32 a drink passage 33, a valve assembly 41 having an actuator mechanism or a push button 21 including a toggle mechanism 41 so that

alternate actuations of the actuator mechanism respective latch the valve assembly in its open and close conditions, see figs. 5 and 7.

4. Claims 1, 3-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Lin (36,659,302). Lin discloses, in fig. 2, a beverage container comprising a base (coffee mug), a removable cover 20 having a cap defining a recess (the annular bottom of member 32), an aperture 24, a drink passage 28, a valve assembly 52 having a push button 64 disposed centrally of the cap, a vent (another passage 28), and a toggle mechanism 26.

#### ***Response to Arguments***

5. Applicant's arguments filed 5/26/05 have been fully considered but they are not persuasive as pointed out in the rejections above. Examiner further notes that the limitations (the cap having deep recess formed in one side, the aperture is to facilitate fluid flow through the drain/drink opening by allowing air to be pulled in the space voided by the outflow of fluid)<sup>one</sup> is not required in the claims; and in claim 7, no structural limitations the toggle mechanism is recited but only the function of latching the valve assembly in it opening and closes conditions.

#### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3727

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
